

Sehrish Khan

Data Analyst | Business Intelligence & Performance Insights

Diamond Bar, CA | sehrishkhan.hjim@gmail.com | [linkedin.com/in/sehrish-khan-63056416/](https://www.linkedin.com/in/sehrish-khan-63056416/)

Turning complex data into actionable insights that drive operational efficiency and strategic decision-making

PROFESSIONAL SUMMARY

Data Analyst specializing in building high-impact Power BI dashboards, KPI tracking systems, and automated reporting solutions that drive operational clarity and faster decision-making. Delivered data solutions that improved reporting accuracy by 30% and increased schedule visibility by 25%, enabling leadership to identify issues sooner and act with precision.

Strong command of SQL, data validation, and data modeling, with a proven ability to transform complex datasets into clear, actionable insights that influence business performance. Known for partnering cross-functionally with stakeholders to streamline reporting processes, eliminate inefficiencies, and elevate data-driven execution across teams.

Operates beyond reporting—translating data into strategy, improving workflows, and delivering insights that directly impact business outcomes.

PORTFOLIO + PROJECT(S)

Portfolio: <https://sehrishkhan.my.canva.site/>

Projects:

- **AI-Assisted Autograder System** | SQL, Python, AI Automation
 - **Challenge:** Manual grading processes were time-consuming, inconsistent, and not scalable for growing student volumes
 - **Tools & Execution:** Designed and deployed an AI-assisted autograding system using **SQL validation logic and Python automation** to standardize evaluation workflows
 - **Business Outcome:** Reduced manual grading effort by **70–85%**, significantly improving turnaround time while ensuring consistent, high-quality feedback across submissions
 - Built a **scalable, production-ready grading framework**, enabling institutions to handle increased workload without additional resources
 - Elevated evaluation accuracy and efficiency, transforming a manual process into a **streamlined, automated system**
- **Electric Vehicle Adoption Dashboard** | Power BI & Tableau
 - **Challenge:** Lack of centralized visibility into EV adoption trends limited the ability to track growth and inform strategic decisions
 - **Tools & Execution:** Developed an interactive dashboard using **Power BI and Tableau**, analyzing multi-year data with KPI tracking and trend analysis
 - **Business Outcome:** Delivered executive-level insights into **YoY growth, adoption patterns, and category performance**, enabling data-driven decision-making and strategic planning
 - Designed **intuitive, high-impact visualizations** that simplified complex datasets into clear, actionable insights for stakeholders
 - Improved visibility into market trends, positioning leadership to identify opportunities and respond proactively to industry shifts

TECHNICAL EXPERTISE & BUSINESS IMPACT

BI & Visualization

- Power BI, Tableau, DAX
- Dashboard Development & KPI Reporting

Data & Databases

- SQL Server, T-SQL, Joins, CTEs, Views
- Data Validation & Data Quality

Data Processing

- Data Cleaning, Transformation & ETL
- Automated Reporting

Tools

- Excel (PivotTables, XLOOKUP)
- Microsoft Fabric, Smartsheet, Git

Business & Collaboration

- Stakeholder Communication & Cross-Functional Collaboration
- Problem-Solving, Analytical Thinking & Time Management

PROFESSIONAL EXPERIENCE

BI/AI Automation & Power BI Reporting

January 2024 – Current

Colaberry Inc (Remote)

- Developed executive dashboards to track program KPIs, improving visibility into schedule performance and enabling faster decision-making.
- Built SQL-based data validation processes to ensure accuracy and consistency across reporting workflows.
- Reduced manual effort by 70–85% by automating evaluation workflows using SQL and Python.
- Partnered with cross-functional teams to gather reporting requirements and deliver actionable insights for decision-making.
- Translated business needs into scalable data models and reporting solutions, improving process efficiency and data transparency.

Project Manager | AI Integration & Reporting

February 2022 – December 2023

Bit & Bytes LLC (Contract)

- Automated reporting workflows and standardized project tracking processes, improving reporting efficiency and consistency.
- Redesigned and automated reporting workflows, eliminating manual inefficiencies and increasing reporting efficiency by 35%, while driving consistency across project tracking processes
- Developed high-impact dashboards and reporting solutions to track project performance, milestones, and resource utilization—giving stakeholders real-time visibility into execution
- Partnered directly with stakeholders to define and refine reporting requirements, transforming fragmented data into clear, actionable insights that improved program visibility
- Built and implemented KPI tracking frameworks that enabled structured performance reviews and supported faster, data-driven leadership decisions
- Led cross-functional collaboration across operations, business, and technical teams, aligning reporting solutions with business objectives and ensuring measurable impact across initiatives

EDUCATION + CERTIFICATION

- Executive Master in Business Administration
 - University of Central Punjab, Pakistan
- Bachelor of Arts (Journalism, Economics)
 - Punjab University, Pakistan
- Full Stack Web Developer Coding Bootcamp - UCLA Extension
- Essential Statistics for Data Analysis using Excel.
- Querying Data with Transact-SQL – EDX
- Analyzing and Visualizing Data with Excel - EDX
